VIRTUAL DJ 7 LE Setup Guide

Before Start -Important-

How to download and install "VIRTUAL DJ 7 LE" is described in this Guide.

- Install the latest version of "VIRTUAL DJ 7 LE" only after uninstalling all the VIRTUAL DJ software by following the separate [Uninstall Guide]. Once it is installed, please launch the software and then close it again.
- Internet connection is required to download the software. Be sure to log in with the computer administrator's account.
- Windows users need an exclusive ASIO driver. Please follow the [Operating Instructions] of XDJ-R1 to install the ASIO driver software included with XDJ-R1 in advance.
- To operate "VIRTUAL DJ LE" using this unit's buttons, see the separate "Hardware Diagram for VIRTUAL DJ LE" (PDF file) table of supported functions.

Disclaimer:

Please note that Pioneer will accept no responsibility whatsoever for loss or damage to the customer's computer caused by the operations based on the information in this Guide. It is advised to use this information at your own risk and on your own responsibility.

Creating a Virtual DJ user account

Please follow the steps below to create a VIRTUALDJ user account. If you already have a user account of Virtual DJ, skip this section and proceed to the next section.

1. Access the website of Atomix Productions.

<http://www.virtualdj.com/>

2. Select "Create a login" from COMMUNITY.

3. Enter ①your email address and click [Get].

An email titled [VirtualDJ confirmation code] will be sent to the email address entered in the previous step.

4. Enter the following information in half-byte characters and click [Create].

- ②CONFIRMATION CODE in the email sent to you
- ③Password
- ④Forum nickname
- ⑤First name
- ⑥Last name
- ⑦Select your country

Create a VirtualDJ ID

① Email

② Email confirmation code [Get]

③ Choose a password

④ Choose a forum nickname

⑤ Enter your first name

⑥ Enter your last name

⑦ Select your country

[Create]

When [MY ACCOUNT] page is displayed, your account is successfully created.

— Be careful not to forget the email address and password you used when creating your account. They will be required for downloading the updated VIRTUAL DJ software and plug-in and participating in the VIRTUAL DJ forum.

— The personal information input when creating a user account may be collected, processed and used based on the privacy policy on the Atomix Productions website.

Downloading VIRTUAL DJ 7 LE

1. Access the website of Atomix Productions.

<http://www.virtualdj.com/>

2. Sign in using your account already created in the previous section.

Enter your email address and password used when creating your account in the [Sign In] panel on the right side of the page and click [Login].

3. Select "Create a login" from COMMUNITY.

4. Register the serial number.

Click [My licenses] on the left side of the page.

Enter the serial number (XXXX-XXXX-XXXXX/R1) located at the bottom of XDJ-R1 in the [Licenses] field and click [OK].

5. Download VIRTUAL DJ 7 LE.

You can find the latest version of "VIRTUAL DJ 7 LE". Click the Windows or Mac icon to download the file depending on your computer.

Installation Procedure

Notice:

- Do not connect this unit to the computer until installation is completed.
- If any other programs are running on your computer, quit them.
- Ensure that the user account name is in 1-byte characters. Otherwise if you use 2-byte characters, some issues such as unable to save the settings and unable to record may occur.

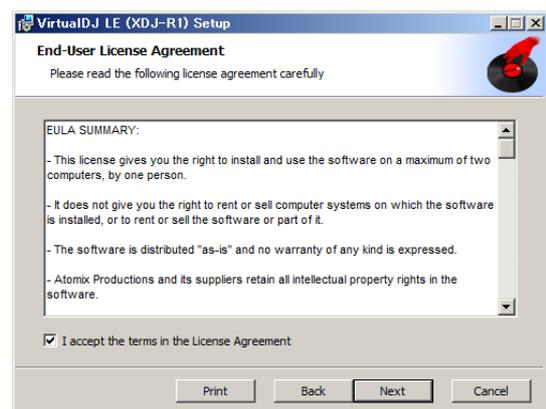

For Windows Users

1. Double-click the file downloaded to install.

Once the VIRTUAL DJ LE installer is launched, click [Next].

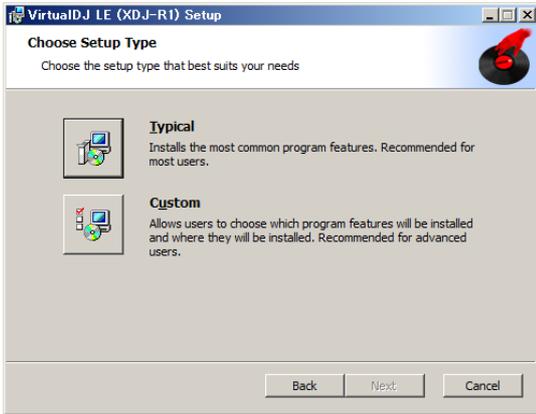

2. Read the contents of the [End-User License Agreement] carefully, and if you agree, check [I accept the terms in the License Agreement], then click [Next].

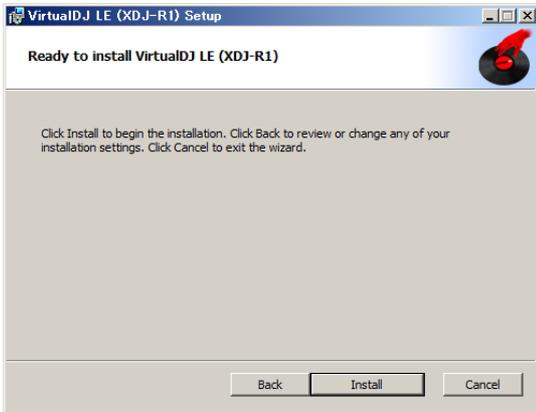

3. Select the type of installation for VIRTUAL DJ 7 LE, then click [Next].

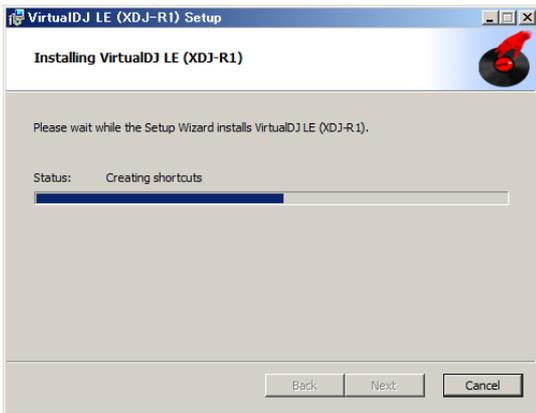

- When [Typical] is selected, plug-ins and other components are installed simultaneously. Normally select [Typical].
- When [Custom] is selected, you can select which components to install.

4. Click [Install] to begin the installation.

Installation begins.

The installation completed screen appears once installation is completed.

5. Click [Finish].

This completes the installation procedure. VIRTUAL DJ 7 LE is launched if [Launch VirtualDJ] on the screen is checked when [Finish] is clicked.

6. Enter the serial number printed on this unit's bottom panel (XXXX-XXXX-XXXX/R1), then click [OK].

7. Check the VIRTUAL DJ 7 LE is lunched and close it.

For Mac OS X Users

1. Double-click the downloaded file to install.

2. Once the VIRTUAL DJ 7 LE installer is launched, click [Continue].

3. Read the contents of the license agreement carefully, click [Continue] and then click [Agree] to accept the license agreement.

— If you do not agree to the license agreement, click [Disagree] to cancel installation.

4. Select the type of installation for VIRTUAL DJ 7 LE, then click [Install].

- To select standard installation, click [Install].
- To install in a different location, click [Change Install Location...] and choose the place of installation.

Installation begins. The installation completed screen appears once installation is completed.

5. Click [Close].

This completes the installation procedure.

Audio Setup for VIRTUAL DJ 7 LE

If you want to output the sound from Master and Headphone of XDJ-R1, sound configuration should be selected depending on your computer.

- Connect the computer and XDJ-R1 using a USB cable while the power of the unit is turned on.
- Please refer to [Using the DJ Software] in the [Operating Instructions] of XDJ-R1 for details. After selecting [PC] as [MIXER MODE], press the [MIDI] button to enable MIDI control.
- VIRTUAL DJ LE cannot be used when [XDJ-R1] but [PC] is selected as [MIXER MODE].

For Windows Users

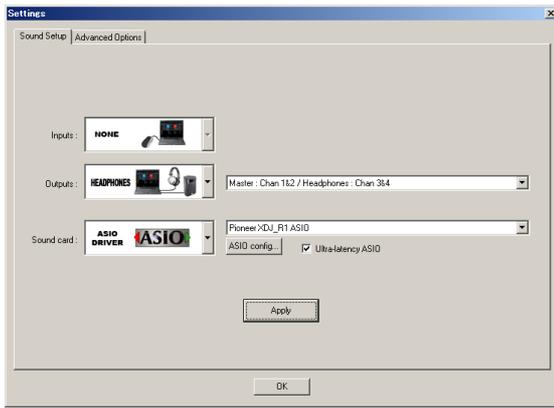

1. Click the [VirtualDJ LE (XDJ-R1)] icon on the desktop screen.

Click [VirtualDJ LE (XDJ-R1)] tile on the Start screen for Windows 8/8.1.

2. Click [CONFIG] in the top right of the computer's screen.

The [Settings] screen appears. Settings should be selected on the [Sound Setup] tab in the following order:

- [Inputs]: Select [NONE].
- [Sound card]: Select [ASIO DRIVER] and [Pioneer XDJ_R1 ASIO].
- [Outputs]: Select [HEADPHONES] and [Master: Chan 1&2/Headphones: Chan 3&4].
- [Ultra-latency ASIO]: Tick it.

3. Click [Apply], then click [OK].

For Mac OS X Users

1. In Finder, open the [Application] folder, then doubleclick the [VirtualDJ LE] icon.

When VIRTUAL DJ 7 LE is launched the first time, a screen for entering the serial number appears.

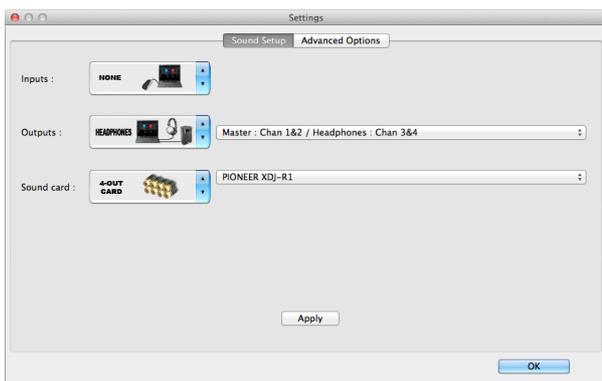

Input the serial number printed on this unit's bottom panel (XXXX-XXXX-XXXX/R1), then click [OK].

2. Click [CONFIG] in the top left of the computer's screen.

The [Settings] screen appears. Settings should be selected on the [Sound Setup] tab in the following order:

- [Inputs]: Select [NONE].
- [Sound card]: Select [4-OUT CARD] and [PIONEER XDJ-R1].
- [Outputs]: Select [HEADPHONES] and [Master: Chan 1&2 / Headphones: Chan 3&4].

3. Click [Apply], then click [OK].
